Introductory Comments

In response to a paper bearing a mail date of July 30, 2003, the due date for response for which is extended two months to December 30, 2003 by the accompanying petition and fee, please enter the accompanying amendments and remarks of record. The Claims and Text have been amended as suggested by the Examiner. Hard copies of the articles listed in the IDS submitted with the last Response are enclosed as promised, and sequence listings are also again enclosed. Counsel for the applicant notes that the electronic copies of both sets of documents were tested in Counsel's office for both readability and printability, and that the hard copy of the sequence listings enclosed with both the prior response and this response was printed from one of the electronic copies actually submitted to the USPTO. The applicants note that the sequences in question are not claimed, and therefore are irrelevant to the prosecution of the claims in question.
